

## **Metal-oxide Varistor (MOV) Selection Guide**

| <b>Voltage</b> | <b>Diameter</b> |     |      |      |      |
|----------------|-----------------|-----|------|------|------|
|                | 5mm             | 7mm | 10mm | 14mm | 20mm |
| 82             | √               | √   | √    | √    | √    |
| 100            | √               | √   | √    | √    | √    |
| 120            | √               | √   | √    | √    | √    |
| 150            | √               | √   | √    | √    | √    |
| 200            | √               | √   | √    | √    | √    |
| 220            | √               | √   | √    | √    | √    |
| 240            | √               | √   | √    | √    | √    |
| 270            | √               | √   | √    | √    | √    |
| 360            | √               | √   | √    | √    | √    |
| 390            | √               | √   | √    | √    | √    |
| 430            | √               | √   | √    | √    | √    |
| 470            | √               | √   | √    | √    | √    |
| 510            | √               | √   | √    | √    | √    |
| 560            | √               | √   | √    | √    | √    |
| 620            | √               | √   | √    | √    | √    |
| 680            | √               | √   | √    | √    | √    |
| 750            |                 | √   | √    | √    | √    |
| 780            |                 |     | √    | √    | √    |
| 820            |                 | √   | √    | √    | √    |
| 910            |                 |     | √    | √    | √    |
| 1000           |                 |     | √    | √    | √    |
| 1100           |                 |     | √    | √    | √    |
| 1800           |                 |     |      | √    | √    |
